## SUMMARY

**Enthusiastic Frontend and Backend Developer** with a solid background in software development. I'm excited about the possibility of transitioning into a Machine Learning Engineer role in the next five years, particularly focusing on predictive modeling for the healthcare and aviation sectors. I love using my software development skills to create solutions that really make a difference. A quick learner with a strong work ethic, I enjoy working in team settings and am eager to contribute to projects that have a positive impact..

## EDUCATION

### IBM Full Stack Software Developer Program

August 2024 .

- Comprehensive training in web development, databases, and cloud computing.

## EXPERIENCE

### Software Developer (Zoho Developer)

Redian Softwares | February 2025 – Present
